Stop thieves profiting from your loss

To protect it, register it

Register mobile devices and other possessions to prevent them being traded in the event of loss or theft and increase the chances of getting them back if recovered by police or other organisations.

Immobilise is the world's largest free property register of personal possession ownership details. It is designed for the public and businesses to register their valued possessions or company assets and exclusive to Immobilise, all account holders registered items and ownership details are viewable on the police national property database the NMPR.

The NMPR is used thousands of times each day by UK police forces to trace owners of lost and stolen property. As a direct result of Immobilise there are hundreds of cases a week where property is returned or information collected that assists the police in investigating criminal activity involving stolen goods.

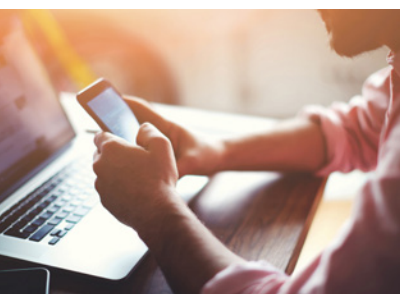

an important part in the Ecosystem as it contributes valuable property and personal data that can lead to crime reduction and repatriation of recovered items.

If in the event of a loss or theft the owner has registered their valued possessions on Immobilise, they instantly have a comprehensive list of possessions. Their inventory includes detailed information for the police to recover the items and which is also useful for insurance claims. If marked on Immobilise as lost or stolen this immediately creates a flag in the NMPR system so if found the police can identify the owner.

How Immobilise works

Immobilise is part of Recipero's Crime Reduction Ecosystem. This global and unique combination of products integrates services for police, insurers, second-hand traders, pawnshops and the general public to identify, avoid and deter fraud and crime relating to lost or stolen property. Immobilise plays

What can I register?

You can register anything with a unique identifier. A unique identifier is something that will help the police identify that the property belongs to you. This can be anything including:

- A distinctive marking, such as jewellery engraving;
- Mobile IMEI number
- Laptop serial number
- Sticker or UV pen marking on power tools
- An ImmobiTag for a bicycle

Benefits of Immobilise

- Records crucial details of personal property before loss or theft
- Provides an on-hand register and proof of ownership certificate in the event of a loss or theft for the police and insurance claims.
- Prevents thieves from being able to sell your property.
- Ensures that police can quickly and easily identify property using the NMPR.

Immobilise truly is a powerful service offering benefits to everyone, however please don't just take our word for it...

Trustpilot review rating: 5 Stars

"Registered my mobile phones with no problem seemed easy and quick and easy to use I would recommend to any one for peace of mind."

Trustpilot review rating: 5 Stars

"Easy to register fantastic free service and I got my phone back from the local police station the next day. Thank you!"

Trustpilot review rating: 5 Stars

"A very easy registration. Just takes a few moments. Might help getting your property back one day."
